PROFILE

An intern. Seeking an OJT opportunity to improve and leverage my current technical skills, such as project management, multimedia, UI/UX, and system design skills, in a fast-paced environment. Creative and detail-oriented 3rd-year IT student bridging the gap between technical system design and multimedia art. Experienced in managing project pipelines, initial data flow diagrams, and concept art to final asset creation.

EXPERIENCE

JANUARY 2026 -
PRESENT

Lead Designer, UI/UX and System Designer, Frontend Developer – Capstone Project

Orchestrated the system’s overall aesthetic, providing moodboard, Figma mockups and custom assets–followed by subsequent coding of the frontend using React and JS, ensuring responsiveness from desktop to mobile. Major contributor of system architecture namely: DFDs, Functional and Non-Functional Requirements, and consulted with other needed diagrams.

SEPTEMBER 2025
- DECEMBER 2025

Project Manager, Game Designer, Artist – Tabletop Role Playing Game (TTRPG): Approaching Dusk

Procured the main game storyline, mechanics, aesthetics, and assets: concept to final art and character designs for the Filipino-themed TTRPG project.

JANUARY 2025 -
MAY 2025

Frontend Developer - Travel Agency Website

Designed and developed the frontend layout of the Gidel Travel and Tours Website, mainly with HTML/CSS and JS for interactivity and dynamicness.

APRIL 2025

Script Writer, Multimedia – IT Film Fest

Authored the primary script and pitched the selected narrative plot for a multimedia film festival entry. Collaborated closely with associate writers to refine, modify, and finalize the script for production
