EXPERIENCE

Lead Designer, UI/UX and System Designer — *Capstone Project*

JANUARY 2026 - PRESENT

Orchestrated the system's overall aesthetic, providing moodboard, figma mockups and custom assets—followed by subsequent coding of the frontend, ensuring responsiveness from desktop to mobile. Major contributor of system architecture namely: DFDs, Functional and Non-Functional Requirements, and consulted with other needed diagrams.

Project Manager, Game Designer, Game Development—*Project 4b*

JANUARY 2026 - MAY 2026

Initiated the group to form a cohesive Game Design Document (GDD), created and managed the project pipeline. Continued to guide the entire team, pioneering team-collaboration and communication while also contributing major assets such as narrative scripts, custom-edited sound effects, backgrounds and miscellaneous assets.

Script Writer, Multimedia — *Film Fest*

APRIL 2025

Spearheaded the contribution for the selection of the final plot, wrote the majority of the final script—modified and approved by associate writers.

EDUCATION
