PROFILE

Seeking an OJT opportunity to leverage strong project management, communication, and UI/UX design skills in a fast-paced environment. Creative and detail-oriented 3rd-year IT student bridging the gap between technical system design and multimedia art. Experienced in managing project pipelines, from initial data flow diagrams and concept art to final asset creation.

EXPERIENCE

JANUARY 2026 -
PRESENT

Lead Designer, UI/UX and System Designer – Capstone Project

Orchestrated the system’s overall aesthetic, providing moodboard, Figma mockups and custom assets—followed by subsequent coding of the frontend using React and JS, ensuring responsiveness from desktop to mobile. Major contributor of system architecture namely: DFDs, Functional and Non-Functional Requirements, and consulted with other needed diagrams.

JANUARY 2026 -
MAY 2026

Project Manager, Game Designer, Artist – Project W.A.V.E.

Initiated the group to form a cohesive Game Design Document (GDD), created and managed the 5-month project pipeline. Guided a cross-functional 6-man team, pioneering collaboration and communication while also contributing major assets such as narrative scripts, custom-edited sound effects, backgrounds and miscellaneous assets.

SEPTEMBER 2025
- DECEMBER 2025

Project Manager, Game Designer, Artist – Tabletop Role Playing Game (TTRPG): Approaching Dusk

Procured the main game storyline, mechanics, aesthetics, and assets: concept art and character designs for the Filipino-themed TTRPG project.

APRIL 2025

Script Writer, Multimedia – IT Film Fest

Authored the primary script and pitched the selected narrative plot for a multimedia film festival entry. Collaborated closely with associate writers to refine, modify, and finalize the script for production
